

It is the vehicle owner's responsibility to ensure the vehicle is in SAFE working condition, this includes adequate oil and water for the engine. Vehicles with obvious safety defects will not be accepted (these include bald or cracked/unsafe tyres etc.) The dyno will be operated to the vehicle owner's specified speed limit. There are always risks (predictable or unpredictable) in running a vehicle at high speeds. Peter Burgess accepts no liability for the failure of any mechanical, electrical or any other component on a customer's vehicle during the course of rolling road testing.

I have read and accept the above conditions;

Name and date

.....

Vehicle make and model

.....

Registration mark

.....

Max speed/rpm in top gear

.....
